Resources List

RESOURCES LIST

The following list of reference material is only a suggestion and does not restrict teachers or prescribe reading texts. Teachers and candidates may well wish to use other materials to suit their needs. The suggested reference material in the list may be used at the beginning of the course and some may suit the advanced candidates. Some of the material may be used by teachers as a background for their teaching. The list will be updated regularly.

It is recommended that candidates keep informed through a selection of newspapers, journals and other sources.

Newspapers & Journals

Recommended newspapers and journals include:

הארץ, ידיעות אחרונות, 'שער' - שבועון חדשות בעברית קלה.

Websites

Websites are a tremendous source of up-to-date information. A search engine such as www.yahoo.com.il or www.ilguide.com.il may be used. Some newspapers like 'Ha'Aretz' and 'Maariv' have their own website (www.haartz.il) and they can be used as well. Other web sites can be used for news, book reviews, etc.

Books

ISBN numbers are given wherever possible. Some Modern Hebrew publications, especially those published a few years ago, do not have ISBN numbers.
